---	---------------------	---

• General Notes & Recommendations

- The teaching package components are full and extensive. (Refer to the Introduction in the Teacher’s Book for more details.) Teachers should make use of ALL the teacher’s resources.
- In addition to promoting independent learning, workbook materials reinforce concepts and support classroom teaching. Therefore, teachers should select materials that align with their instruction, help students acquire target skills, and facilitate the assessment of module outcomes.
- The “Culture Pages” and the “Tasks” should be dealt as enrichment materials.
- The Speaking and Grammar Reference sections are essential parts of the textbooks and should be exploited appropriately; teachers can use them as a discovery task or as a post-teaching consolidation to clarify and check understanding.
- During exam periods, teaching hours are redirected towards support sessions rather than continuing with the planned material. Teachers should ensure that all lessons are delivered as outlined in the overview and that teaching time is used strictly in line with the plan of the module.

• Round-up lessons:

- Teachers should use the data collected throughout the module, such as assessment results, classroom performance, and observed areas of difficulty, to plan revision activities that address actual learning gaps and reinforce key concepts where support is most needed.

الصفحة 6 من 9	التصنيف: داخلي	تاريخ الإصدار: 26-05-2024	رقم الإصدار: 1	رمز النموذج: ES-ESE-P3-F1
---------------	----------------	---------------------------	----------------	---------------------------

- While the grammar and vocabulary exercises found on the Review pages of the modules are a useful resource, they should not form the sole basis of the revision sessions. Round-up lessons should be targeted, purposeful, and should address the specific skill gaps identified through assessment data and teacher observations.
- **Values and Competencies**
 - Values education has been taken into consideration while designing the course.
- Teachers should identify core values, such as honesty, respect, responsibility, empathy, and perseverance, etc. and instill them in their students to foster ethical behavior. Teachers should discuss with their students the importance of such values for their personal growth and interactions with others.
- Teachers should carry out activities in ways that guide students to understand their place in the classroom and in school, in their family and in the wider community, and as citizens of the world. Simultaneously, they become conscious of their respective rights and responsibilities.
 - Key competencies are woven into the resource activities, and students are expected to be constantly acquiring and developing them. The activities require students to activate the knowledge, skills, and attitudes leading to the development of different competencies. Yet, the teachers should:
 - use approaches for delivering the activities that maximize the benefit for all students.
 - use the activities to promote positive relationships among students; encourage teamwork, collaboration, and mutual respect, etc.

إدارة التوجيه التربوي قسم اللغة الإنجليزية	نموذج الخطة الفصلية	وزارة التربية والتعليم والتعليم العالي Ministry of Education and Higher Education دولة قطر State of Qatar
---	---------------------	---

- implement activities that build empathy, conflict resolution, skills building, and effective communication.
- **Learning outcomes:**
 - The learning outcomes mentioned above are NOT exhaustive. They only aim to provide guidance on determining the end goals of each module.
 - Module outcome(s) should incorporate the appropriate match of competencies and values/cross-cutting issues in the outcome(s) of each module.
 - Lessons should be planned in ways that lead to the achievement of the module outcome(s); Lesson components/elements should gradually build student competency toward the mastery of the targeted language skill.
 - Teaching material (textbooks and/or supplementary) and formative assessment should be aligned with the module outcome(s).
