Directions:

Read the following passage and answer the questions that follow.

- 1 In the 1950s, television was still a new and wonderful form of entertainment for American families. Movie makers worried about people staying home instead of going out to theatres. Advertisements about movies tried to bring people back into the cinemas. Movie also worked on developing new ideas to bring people back. One of these was 3D movies.
- 2 3D movies are filmed with two cameras, spaced apart like two eyes are spaced apart. Movie fans in the past had to wear ***special*** glasses to see the two images as one. 3D film makers knew that 3D itself was new and interesting and it wasn't enough to win viewers. The content of these films would have to be dynamic. The first 3D movie was *Bwana Devil* and it was followed by *House of Wax*. It is an adventure story about African lions attacking young men.
- 3 At the top, approximately five thousand theatres in the US were showing 3D movies. Unfortunately, there were some problems. Displaying these films required some technical skills. If the 3D films weren't displayed exactly right, they would not be clear even when viewed through the glasses. Also, some people suffered headaches and pain in the eyes from using the glasses. So, 3D movies began to die away.
- 4 The technique was never forgotten though, and 3D films can be viewed with glasses at IMAX theatres. *Avatar* and *Ice Age*, very popular 3D films shown in regular theatres, won many major awards in 2010. Last, don't throw away your glasses. 3D is here to stay!

1. What is the main idea of the text?

- D. 3D movies offer a new form of entertainment.

3. Which of the following is closest in meaning to the underlined word "special" in paragraph 2.

- A. brave
- B. happy

A Day at the Beach

It was early summer, and the weather was really hot. Tyler's mom had told him that on Saturday they would be going to the beach. Tyler was excited. He couldn't wait to practice his swimming skills he learned at the local pool during the spring. Dad had to work, so he was not going to be able to go along.

The drive to the beach was only an hour, but to Tyler it seemed forever. Mom said they would spend the day swimming, and the big treat of eating dinner in a restaurant would end their busy day.

They finally arrived at the beach. Tyler helped his mom unload the beach blankets, his sand toys, and some snacks. "The waves look really high!" Tyler said to his Mom. Mom found a good spot on the sand that was close to the water and put the blankets down and set up some chairs. Sitting close by them was a boy about Tyler's age. He came over and said his name was Gary and asked Tyler if he wanted to build a sandcastle with him. "Sure," said Tyler. His mom began talking to Tyler's mom about school, work, and things moms usually talk about.

The boys built a great sandcastle. They decided to head for the water. "Be careful," shouted Gary's mother. "We will," Gary shouted back. The boys were running in and out of the water and jumping through the waves laughing. They were having a great time. Suddenly, they ran to jump in a big wave, but Tyler couldn't find Gary. Tyler looked around and finally saw him waving his hands yelling for help. Tyler sprang into action and remembered the lifesaving skills he learned during his swimming class at the local pool. *I've got to get to Gary*, thought Tyler. Tyler swam to where Gary was and put his arm around him and told him to hold on tight. Just then the lifeguards spotted them. He rushed to the water and took over. He was able to get Gary from Tyler and bring him safely back to shore.

Gary's Mom was so scared, but she realized if it hadn't been for Tyler's quick action, Gary may have drowned. Gary and his mom thanked Tyler for his fast thinking and great swimming skills. That night Gary's mom invited Tyler and his mom to go to dinner with them. "It's my thank you treat," said Gary's mom. Not only did the boys become friends, but their moms did as well!
