Reading

Read and answer the following questions:

Smoking

No one can deny that smoking is one the worst habit ever. Many people would agree that smoking is a drug and is highly addictive. Smoking can actually do more damage to your body than you think it can. Smoking needs to be stopped and I am here to tell you why.

First, you are in charge of your health. You might choose the unhealthy choice and that's fine! Unfortunately, smoking also affects others. Did you know that when you're smoking, your children can inhale your smoke and could get sick without even knowing? This is called passive smoking.

Secondly, why would you pay an amount of money for a pack of cigarettes?

Cigarettes are harmful and are a disgrace; they cause bad breath, they are a bad, filthy habit and they make you look unattractive. Do you really want to be a bad role model to children? So why do you buy them?

Finally, and most importantly, smoking will increase your chances of cancer or other sicknesses and may cost you your life. Imagine that, you're buying a cigarette packet, and exchanging your life for it! Furthermore, it has been known that mothers who smoke during pregnancy increase the chance of their children being affected, and even being born with disabilities. Smoking is a deadly habit.
