Read the following text and answer the questions:

Sunglasses, shades, dark glasses or even sunnies. Whatever you call them, when the sun comes out, they do too. But who were the first people to wear them? Well, in snowy places, the sun can be very bright, and from prehistoric times, ancient Innuits of the Arctic regions wore glasses made of bone with thin holes (slits) in them. These didn't let a lot of light in and protected their eyes. Today, sunglasses are usually plastic and come in all shapes and sizes. People wear them to protect their eyes from the sun's harmful rays while doing outdoor activities or sports, or just because they're in fashion. But many celebrities wear them indoors too, because they want to hide their identity

Read the passage and answer the questions.

1 **Lionel Andrés Messi**, born on 24 June 1987, is an Argentine footballer who currently plays for Barcelona and the Argentine national team. He is one of the best football players of his generation and is frequently considered as the world's best contemporary player. In fact, I always compare his playing style and ability to Diego Maradona.

2 Lionel Messi's talent was early detected by his father. When he **began** playing with the local team, his talent was quickly identified by Barcelona . At the age of 11, he was diagnosed with a *growth hormone deficiency*, which is a medical condition in which the body does not produce enough *growth hormone* and whose treatment needs a lot of money. He left his country in 2000 and moved with his family to Europe, as Barcelona offered treatment for his growth hormone deficiency. Making his entrance in the 2004–2005 season, he broke the *La Liga* record for the youngest footballer to play a league game, and also the youngest to score a league goal. Major honours soon followed as Barcelona won *La Liga* in Messi's entrance season, and won a double of the league and Champions League in 2006. His breakthrough season was in 2006–2007; he became a first team regular, scoring a hat-trick in El Clásico and finishing with 14 goals in 26 league games. Perhaps his most successful season was the 2008–2009 season, in which Messi

scored 38 goals to play an integral part in a treble-winning campaign.

3 Messi was the top scorer of the 2005 FIFA World Youth Championship with six goals, including two in the final game. Shortly afterward, he became an well-known member of Argentina's senior international team. In 2006, he became the youngest Argentine to play in the FIFA World Cup and he won a runners-up medal at the Copa América tournament the following year.

1. What is the text **MAINLY** about?

- A. Messi's appearance season
- B. Messi's time and place of birth
- C. Messi as the top scorer of 2005
- D. Messi from a disease to a top player

2. When did Messi move to Europe?

- A. in 2000
- B. in 2004
- C. in 2006
- D. in 2008

3. In paragraph 2, what is the closest meaning to the underlined word “began”?

- A. rushed
- B. started
- C. planned
- D. resigned

4. In which way does the writer compare Messi to Maradona?

_____.

5. Who discovered Messi’s talent

_____.

Read the following text and answer the questions:

- 1 American bison are large, plant-eating mammals that are similar to cows. There used to be as many as 30 million bison in the United States, but because of hunting, by 1890, only 1,000 bison were left. There are now more American bison than there used to be, but still far fewer than there were before the 1800s.
- 2 The bison is the largest land animal in North America. A grown male bison is bigger than the female one. It is about 121 feet long. It weighs between 1,600 and 2,000 pounds. A bison is easy to recognize. It has a hump on its shoulders and curved horns on its head.
- 3 Long ago, bison wandered freely on the American plains. In 1850, there were about 20 million bison in North America. A large **herd** of bison looked like a black cloud moving across the plains. The earth shook when the bison started to run.
- 4 For many years, Native Americans hunted bison. They used the bison for many things. They used the meat for food. They used the bones for making tools. Hides were made into clothing and tents.
- 5 During that time, there were many bison. Later, new settlers began to hunt bison. They hunted mostly for sport and for the hides. Because of too much hunting, the number of the bison dropped. Soon, the bison were almost all gone.

6 Today, there are few bison left in North America. They live in protected places where people take care of them. We can only imagine what the American plains looked like when bison wandered freely.
