### **Unit 6**

#### **Write a letter of advice to a friend with a problem**

Thank you for asking for my advice about your job interview. First thing, you have to dress up and have the right look. Secondly, while speaking, you better make eye contact with people talking to you. While speaking, try to be persuasive with your words and make interviewers feel that you could be the right candidate for the job . You may be asked some challenging questions such as " why do you need this job?' , 'Where do you see yourself in five years?' Why would you like to work for this company? So , you should let them see that you are very confident with your answers No matter how hard it is, you go there, take this challenge and prove yourself. I hope you will be accepted for this job.
