Language Builder

Explain that the expressions *drive/go to work* and *go to school* do not use the article *the* in front of *work* or *school*. You might also want to present the expression *go home*, which uses neither *to* nor the article *the*.

Language Builder

Show students that there are other ways of saying times.

1:10 = ten (minutes) after/past one

1:15 = (a) quarter after/past one

1:30 = half past one

1:40 = twenty (minutes) to two

1:45 = (a) quarter to two

Teaching Tip

Silence can be good. It's natural to get nervous if students are taking what seems like a long time to answer a question. But silence usually means they're thinking and that's a good thing. Don't be afraid to wait a reasonable amount of time before you say something to help them.

Additional Activity

Have students find pictures in magazines of people doing everyday activities like those on page 18. Then they make up sentences about the people. For example: ***She usually makes dinner in the evening. He usually checks his email in the morning.***

According to research done by the *Oxford English Dictionary*, the word *time* is the most frequently used noun in English. This seems to confirm that for English speakers, time is very important!
