My Favourite Pets

حديث (دخلت امرأة النار في هرة)

عُذِّبَتْ امْرَأَةٌ فِي هِرَّةٍ أَوْثَقَتْهَا، فَلَمْ تُطْعَمْهَا، وَلَمْ تَسْقِهَا، وَلَمْ تَدَعَهَا تَأْكُلْ مِنْ خَشَاشِ الْأَرْضِ.

My favourite animal

My favourite animal is dog.

It eats dog food.

It lives in my home.

It likes the dog doll.

10 Lines on My Favourite animal Dog

1. My favourite animal is the dog.
2. The dog is a pet animal and it is found everywhere in the world.
3. It has four legs and it runs very fast.
4. It has two eyes, two ears, sharp teeth and a short tail.

Essay On My Favourite Animal

- Dogs are furry mammals who walk in all fours and have sharp teeth and a tail.
- Dogs are super faithful and loyal to their masters.
- A dog is an intelligent pet.
- Dogs are of different colours, usually brown, black, white and reddish-brown.
- Dogs are of different sizes too. Dogs are carnivorous.

My Favorite Animal

My favorite animal is a dog. My favorite animal is a dog because they are very smart animals and many more reasons.

Dogs help me get my energy out when I need to get exercise. Some dogs are fast and some dogs are slow. I like to play with fast dogs, but not dogs that are too fast. I also like to play with dogs that are not too small, but also not too big.

That's some of the reasons why dogs are my favorite animal.

My favorite pet is my dog,
Romeo. He is beautiful and easy to care
for; his medium white fur needs no extra
brushing. Playing with him is lots of fun;
I throw a tennis ball and he bounces off
to retrieve it. He always takes care of
me; he prances up to me whenever I
say, "Ow!" and licks my face. Romeo is
the best pet anyone could ever
have.

My favourite pet

My favourite pet is my cat.

She eats a lot.

Her name is Mimi and
she is 3 years old.

Her colours are grey and white.

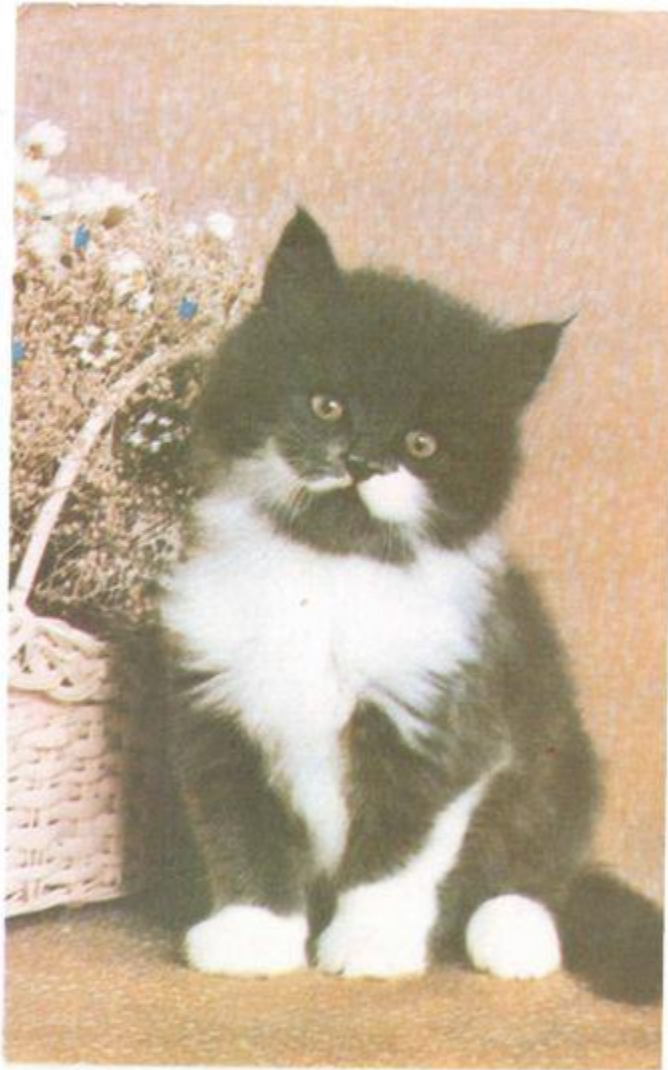

My cat doesn't like dogs.

My Favourite Pet

SG1 U2

Page 15 & 16

- *I have a cat. He is very beautiful and gentle. His name is Tisha.*
- *Tisha is white and black. He can eat different tasty food. He likes milk, nuts, fish, meat, sausage.*
- *I love my pet.*

My favourite animal

Which animal do you like best? My favourite animal is a panda. Because it is very lovely. It is black and white. When it grows up, it will be very big.

My Fat Rabbit

This is my pet. It is a rabbit. It's colour is white. It has long black ears. My rabbit eats vegetable. it likes to play around my house. It can run and hop. Everyone likes it. My grandma gave it to me two weeks ago.

Rabbit...

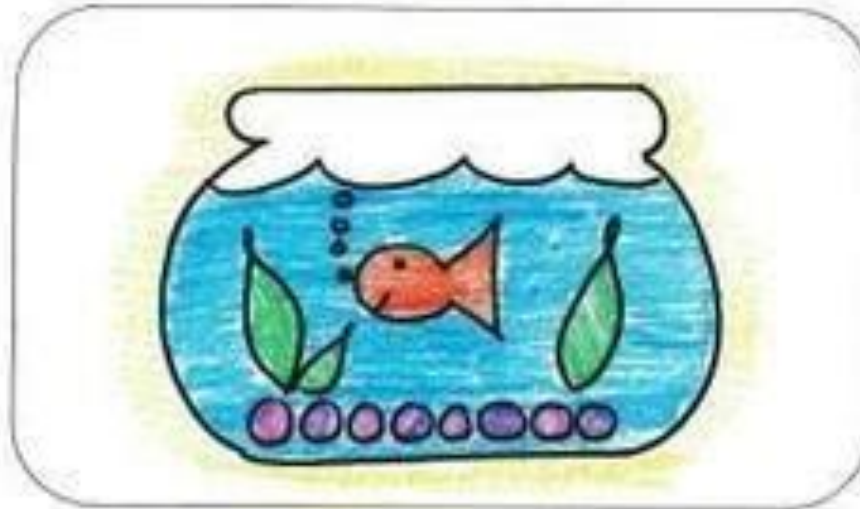

- **My favorite animal is a rabbit. It is grey and white. It has got a short tail and long ears. It likes carrots and cabbage. It is very clever and nice.**

What was my favorite pet?

My all time favorite pet would probably have to be my goldfish. Her name is La Fonda. I have had La Fonda since I was 7. She has been a great goldfish. I also have many memories with La Fonda.

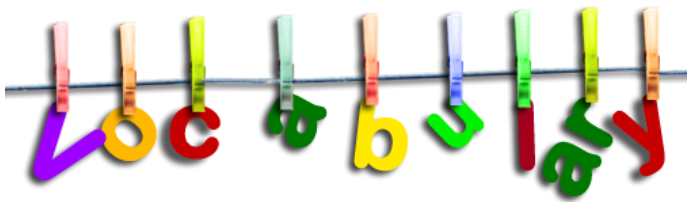

Fish are the best pets. Here are some reasons why. First, they are easy to feed. Also, fish are very quiet. They never bark! Another reason fish are the best pets is because they are very colorful. They come in many different colors like orange, blue and purple. You should consider getting a fish for a pet!

I have a lovely goldfish.It has two big eyes and a small mouth.It has “clothes ”over its body. With the help of the fins and the tail,It can swim very well.Most people think It is a wonderful pet because It does not make any trouble .It doesn't eat a lot and just bubbles .

How Old Are They?

Flipper is a dolphin, and he is 5 years old. That is young for a dolphin. It is the age of an 18-year-old person. Flipper is a baby in human years, but he's a teen in dolphin years.

Cleo the cat is one year old. In human years, she's a 15-year-old adolescent.

Ollie the elephant is four years old, and he's only a baby. Samson, his father, is 30. That's still young for an elephant.

Animal	Life Span	Animal	Life Span
turtle	123 years	horse	33 years
parrot	80 years	rabbit	9 years
elephant	70 years	mouse	4 years

Marla is old—even for a turtle. She's 95.

Animal	Age	Human Years
cat	1 year	15 years
	5 years	36 years
	15 years	74 years

How old are you?

What is the life span of a horse?

Which animal has a life span of 123 years? What kind of animal is Marla? How old is Ollie?

Bison

Imagine what it would be like if most of your food came from one animal. For the indigenous people who lived on the wide grasslands of North America, bison were that animal. Bison were also called buffalo. **They were a vital source of food.** **Their skins provided materials for clothing. Bones were used for tools.** **The Great Plains tribes lived their lives around hunting these animals.** Today, no one totally relies on the bison for their way of life. Still, they are important to American history and culture. They were the first national mammal of the United States.

Bison are plant-eaters. They roam around the plains and prairies of North America. Male bison weigh up to 2,000 lbs. Females weigh around 1,000 lbs. **The males and females both have horns up to two feet long to defend themselves, and they aren't friendly. They can be aggressive to humans and other animals.** They're also able to run up to 40 miles per hour and jump nearly 6 feet into the air. Bison may be large and heavy, but they can move!

Bison have a dark brown shaggy coat with a fluffy hairstyle around the horns and small beards. During the winter they have been known to dig through deep snow to try to get a meal from the grass underneath. With all the insulation from their fur and fat, they stay warm while digging in the snow.

Bison travel in family groups. **Mating season comes in mid-summer, and calves are born in the springtime. Bison only have one calf at a time. Their pregnancies are a little longer than humans'—about nine and a half months.** That means each calf is an important addition to the family group.

If you visited the plains of North America three hundred years ago, you would find millions of bison. They roamed free from northern Mexico all the way up to southern Canada. **After Europeans arrived and began to hunt the bison and invade their habitat, the population dropped to about 300 bison in the year 1900.** Due to farmers and the government setting aside room for the animals to roam, the number has increased to about half a million. With the number of bison continuing to grow, these national animals should be around for a long time to come.

Bison

Write the correct answer using text evidence.

5

How long do bison carry their babies?

Bison

Write the correct answer using text evidence.

6

When did the bison population reach its lowest number?

Bison

Write the correct answer using text evidence.

7

Why are bison the national mammal of the United States?

Bison

Write the correct answer using text evidence.

8

Would it be safe to approach a bison? Why or why not?

1. the meaning of text evidence.

Text is written work.

Evidence is proof.

Text + Evidence is citing proof in the reading.

shutterstock.com · 339216881

2. Read through the text thoroughly.

It is helpful to read through the text independently and then together. That way struggling readers will be able to hear words that they may not have understood or read correctly.

Answer the question using prior knowledge and inferences.

How old are you?

A companion of The Prophet (pbuh) asked,

**"O Allah's Messenger!
Is there a reward
for us in serving
animals?"**

He (pbuh) replied,
**"Yes, there is a
reward for serving any
animate (birds, animals etc.)."**

~ Bukhari 42/11
