The Kingdom of Saudi Arabia has a great amount of natural resources, such as oil, gold, phosphate, uranium, and other valuable minerals. But more importantly, it is blessed with the strength,

potential and ambition of its people. The children of the Kingdom's family oriented, Islamic society will be the force of the future.

Families will receive all the support they need to raise their children according to Islamic values and help them develop their abilities. There will be more libraries, galleries, and museums in different areas. Cultural events and activities will be organized to educate and provide entertainment. Health care and education will be available to all citizens making their lives happier and more secure.

A healthy economy will offer opportunities to large and small businesses. Quality services and facilities will attract investors from different countries. A renewed business environment will provide professional opportunities to all citizens. A high quality educational system that meets the needs of the job market will provide Saudi professionals with the necessary knowledge and skills.

The Kingdom's strategic position, will make it an international trade and transportation center. It will become the hub that will connect Africa, Asia, and Europe.

Telecommunications and information technology, will be developed in and around cities. This will make it easier for people to communicate across the globe and access information.

Government services will support the growth and development of private and non-profit organizations and help them to operate successfully.

## Teaching Tip

Just as it is important to teach students how to use a dictionary effectively, they also need to know their way around other sources of information such as encyclopedias and other reference works. Show students how to use the table of contents and the index of an encyclopedia so that they can find the information they need quickly and effectively.

## Additional Activity

Tell students to imagine they are tour guides who take visitors through the new port and facilities used for international cargo, or a new gallery or museum. Using the tour guide they listened to on page 21 as a model, have students prepare the text of what they are going to say. They then take their classmates on the tour.

## Project: Schools in 2030

Have the students work in groups imagining and designing a school for the future. Encourage them to be creative and think of different aspects such as facilities, equipment, timetable and so on. They can then prepare a poster and present their ideas to the class.
