Learning Objectives

الأهداف التي سيكتسبها الطالب في الدرس

- .Find information in the text about aeromodeling ☐
- .Match the main ideas with each paragraph ☐
- .Compare the aeromodeling then and now ☐
- .Name the types of airplanes on the text ☐
- .Find the meaning of new words in the text ☐

Find the meaning of new words in the text

Find information in the text about aeromodeling

Match the main ideas with each paragraph

Compare the aeromodeling then and now

Name the types of airplanes on the text

A **flipped classroom** is an instructional strategy and a type of blended learning, which aims to increase student engagement and learning by having students complete readings at home and work on live problem-solving during class time.

Before Reading

What will this book be about?

What does the title tell me?

What do I already know about the topic?

What do I want to learn?

During Reading

I wonder why...?

I'm curious about...?

What would happen if...?

How...?

How is the character feeling?

Does this make sense?

What do I think will happen next?

What have I learned so far?

After Reading

What is my opinion of _____?

What was the author's message?

What did I learn?

Why is this information important?

What was the main idea?

What do I still want to know?

What new words did I learn?

Why did the author write this?

8 Reading

BEFORE, DURING AND AFTER READING QUESTIONS

BEFORE	DURING	AFTER

Activating Prior Knowledge

I can use what I already know to help me understand something new.
I can think about what is going to happen based on what I already know and what I have read.

Gayle Pinn

K

What I **know**

Introduce the topic and brainstorm with the class. Note down responses.

W

What I **want to know**

Record any questions the class has about the topic and/or turn textbook subheadings into questions.

L

What I **learned**

After reading or listening record what students say they have learned.
Note any W questions that were answered.

رابط الدرس الرقمي

www.ien.edu.sa

Aeromodeling is an exciting hobby. It attracts people of all ages. They all have one common interest—the love of flying small-sized airplanes. Most people no longer fly the old elastic-propelled planes. They no longer fly planes that are attached to two cables and that fly in circles around them. Nowadays, with the advances in technology, the big thing is radio-controlled airplanes. These models fly like real aircraft and are an aeromodeler's ultimate dream. People control the movement of the planes through radio signals. Aeromodels can even perform aerobatics in the sky!

Radio-controlled airplanes come in all shapes and sizes: from the Mini Flyer-plane with a wingspan of 9 inches (23 centimeters), to the huge passenger jet models with a 29 1/2-foot (9-meter) wingspan. The price of the airplanes varies from \$30 to several thousand dollars. There are different methods of propulsion, or ways to power the planes. These range from electric motors to expensive jet turbines.

Jet-powered models are sophisticated aircraft. Their engines sound like those of full-size jet planes. These jet models can travel at speeds of 236 miles (380 kilometers) per hour—that's more than the top speed of a Formula 1 race car. Jet models always attract large crowds at aeromodeling competitions. At these competitions, fliers usually do a series of actions with their planes, including launchings, landings, and doing maneuvers in the air.

Aeromodeling is a popular hobby all over the world. In the United States, for example, the Academy of Model Aeronautics has more than 170,000 members in 250 model airplane clubs. The organization advertises the great things about aeromodeling as a sport.

8 Reading

at the chart and identify the information you need to find in the reading.

After Reading

work alone to scan for the information to complete the chart.

Underline the parts of the text that give the answers. Compare answers in pairs.

Complete the chart with the information on aeromodels from the article.

Kinds of Aeromodels	Sizes	Prices	Kinds of Engines	Speeds
elastic-propelled				

Answers

Kinds of Aeromodels	Sizes	Prices	Kinds of Engines	Speeds
Elastic-propelled, planes attached to cables, radio-controlled, jet-powered	23 cm to 9 m	\$30 to several thousand dollars	Electric motors to jet turbines	Up to 380 km per hour

ACTIVITY

Like/Love/Hate + -ing

Name: Date:

1. Read the text. Julia is talking about the activities that she likes and dislikes.

Hello! I'm Julia. I'm 10 years old. I want to talk about the activities that I like and dislike. I **love eating chocolate** but my mom always told me that I shouldn't eat. I **like playing with my dolls**. I have a lot of time so I enjoy it. Also, **my friends and I like reading comics**, but I **don't like drawing**, it is difficult for me. I'm sometimes lazy to exercise for that reason I **hate running**. I feel too tired. But I need to tell you that I **love jumping and playing soccer**. It's amazing!

2. Once you read. Choose true or false.

- Julia doesn't like eating chocolate.
- Julia likes playing with her dolls.
- Julia's friends hate reading comics.
- Julia doesn't like drawing.
- Julia hates running.
- Julia doesn't like jumping.
- Julia hates playing soccer.

4 Favorite Pastimes

Read the paragraph.

Fahd goes to school Sunday through Thursday. He works out three days a week on Monday, Wednesday, and Thursday. He stays healthy all year, and he's not sick a lot. He also hangs out with his friends after school and on weekends. They go to the mall every Thursday, and they usually eat lunch in the food court. He loves the pizza there. One time he got Indian food, but he didn't like it. So now he just eats pizza. He and his friends like to chat online a lot, too. But he has to do his homework before he can go online. Some of his friends send him a lot of messages, but his friend Qassim only sends him one or two messages a week. Qassim doesn't have a lot of free time to go online. Qassim goes to swimming practice every afternoon, then he does his homework and goes to bed early. He can only go to the mall once or twice a month. But tomorrow, Qassim, Fahd, and their friends are going to hang out at the food court. They want to try the food at the new Indian restaurant!

Write **T** for **True** or **F** for **False**.

1. **T** Fahd goes to school five times a week.
2. **F** Fahd works out twice a week.
3. **F** Fahd and his friends seldom eat lunch in the food court when they're at the mall.
4. **F** Qassim often sends Fahd emails.
5. **F** Fahd never hangs out with Qassim.

8 Reading

Each year the World Air Sports Federation (FAI) Aeromodelling Commission (CIAM) holds a World Cup, which is a series of international competitions. These competitions take place in various countries around the world during flying season (February to October) and include several different categories of aeromodeling. A committee for each category keeps a record of the competitions and publishes the results and rankings at the end of the season. At the annual meeting of the FAI Aeromodelling Commission, held in Lausanne, Switzerland, World Cup winners in each category are presented with an FAI medal and diploma.

Teaching Tip

Give students a time limit when reading. First, time yourself. Have students do the reading in double that amount of time. This will help them increase their reading speed.

Additional Activity

Have students find more information about aeromodeling. For example, ask: ***How much does the hobby cost locally? Where can people get aeromodels? Are there clubs or competitions anywhere in the country?***

Project: Popular Pastimes

Organize students into small groups and assign each a different age group; for example, children (5–9 years old), pre-teens, young adults (22–35 years old), middle-aged adults, and senior citizens. Each group researches the most popular pastimes for their age group. Have them report their findings to the class.
