Language Builder

The word *time* is used in various expressions in this unit. *Free time* is the period of time when people are not working or fulfilling an obligation. Students will also hear *spare time* and *leisure time*.

The expression *three times a week* refers to the number of instances something takes place.

A *pastime* is a hobby or activity people do in their free time.

almanahj.com/sa
2026 2025
موقع المناهج السعودية

2 Pair Work

fun facts

- In U.S. high schools, the most popular after-school sports to play are (in this order): football, basketball, track & field, baseball, soccer, wrestling, cross country, golf, tennis, and swimming & diving.
- Eighty percent of teens in the U.S. work part time for some period during high school. Teens usually hold jobs in retail and service, such as restaurants, grocery and department stores, and clothing stores.

Teaching Tip

When speaking and giving information about yourself, it is not necessary to speak in full sentences, even if you are trying to illustrate a grammatical point. It is more natural, for example, to say: *I go to the gym three times a week—sometimes four or five times a week.*

Additional Activity

Have students find pictures in magazines of people doing everyday free-time activities, such as watching TV, surfing the Web, reading, playing basketball, etc. Have students look at the pictures and make up stories about the people. For example: *He plays basketball with his friends. They play two or three times a week. They usually play after school or on Saturdays.*

Language Builder

Remind students that *hang out* (under the first picture) and *eat out* (in Pair Work) are two-word verbs, so they have a different meaning from the meaning of the two separate parts. *Hang out* means to spend time at a place with other people. *Eat out* means to eat in a restaurant.

Irregular Verbs

Base Form	Simple Past
