Last week, I went to the Red Sea mall. I saw an old friend. On a café. I was happy and surprised to see her after all these years. Because she was one of my best friend. It was the strangest coincidence of my life to meet her.

A Strange Coincidence

One day last week. My father and I were out shopping in town. We were looking for a present for my uncle. So, we went to a mug shop. My father saw a nice mug on the shelf. My father said your uncle will like that because he drinks a lot of tea. I picked it up to look for the price and it was the shop assistant's own mug. I was very happy to know that the shop assistant is my cousin. It was the strangest coincidence of my life to meet him.

Driving Age

- D. Write an essay to argue why the driving age in some countries should be raised to 18 or older. Use your notes from the chart and ideas from this unit.

What is the legal driving age in your country?

What is the main cause of road accidents?

Who are more likely to engage in road rage?

Why are teenagers not responsible drivers?

Why the Driving Age Should Be Raised

There is an argument that the legal driving age which is 16 years old in some countries, is too low and this causes an unacceptably high level of traffic accidents. Raising the driving age, would ensure young drivers are more experienced and less prone to road rage, which can put other road users at risk. Most teenagers are immature. For this reason, they are not responsible drivers.
