6marks/.....

In the chart below there are list of inventions that have change your life ,Write how each one has made your life better or worse ,easier or harder .

				
Airplane	Cellphone	Credit Card	Laptop	Camera

Read the following passage then answer the questions

Eiffel Tower is one of the most iconic landmarks in the world. Located in Paris, France, it stands at a height of 324 meters and was constructed for the 1889 Exposition Universelle, a World's Fair celebrating the 100th anniversary of the French Revolution. The engineer Gustave Eiffel and his team of architects and engineers, who worked hard to create this incredible feat of engineering, designed the tower.

The design of the Eiffel Tower was innovative and revolutionary at its time. It used an open-lattice structure made out of iron beams connected together with rivets. This allowed for both strength and flexibility while also reducing wind loads on it, making it more stable than other types of structures. The exterior of the tower is also decorated with colorful lights, which add to its beauty and appeal at night.

The Eiffel Tower has become a symbol of Paris and of France in general. Millions of tourists, who are eager to experience this iconic landmark firsthand, visit it each year.

Apart from being an iconic symbol, the Eiffel Tower also has many practical uses. It houses two restaurants at the top, along with several observation decks for visitors to enjoy panoramic views of Paris. There is also a meteorology laboratory and a post office in the tower. The Eiffel Tower has become a symbol of strength, beauty, and innovation.

A) Answer the following questions
