### THE GIFT OF LIFE

Trent Olsen donated blood for the 100th time on Wednesday, June 23rd. Trent made his first donation at the Red Crescent Mobile Blood Donor Clinic when he was in his 20s. He said, "It started when some colleagues and I saw the mobile clinic parked outside our office. We all decided to give blood. I continued regularly after that because I thought it was the right thing to do. I didn't have a lot of money for charity, so it was my way of helping others." Every eight weeks, Trent makes his next appointment to give blood at the Fairview Clinic. One donation can save up to three lives. :

Thank you, Trent!

Ahmed was born with a crippling disease that made it difficult for him to walk. But that didn't stop him from playing his favorite sport – football. Ahmed explained, "I used to love watching AFC games, and my older brother, Ali, played football in high school. When I was 12, he taught me to play in the park. My family really encouraged me, so I got in touch with other kids like me and we formed a team." Ahmed and his team compete in the Special Olympics Junior League. He is team captain and this year's highest scorer. Ahmed is an example to all young athletes.

The employees combed the beach for plastic bottles, bags, cans, and other litter. Last year, hotel and restaurant owners in the community decided to take responsibility for keeping the beach clean. Their efforts are a big success, and Sunset Beach was awarded the Blue Flag by the Foundation for Environmental Education.

1. In just two days, over 300 people came to give blood at the Heart-to-Heart Mobile Clinic in Lakeside County. Local businessmen and shoppers were happy to volunteer to help others in need. Some people donated blood for the first time and said they planned to do it again. One donor told doctors that it was his 50<sup>th</sup> time giving blood. The blood donations will go to hospitals around the country and will save many lives.
2. My aunt and uncle are new parents! They have two little newborns. They're so small! It's hard to imagine that I was that little when I was an infant! The other really cool thing is that my two new little cousins look exactly the same. Why? Because they're twins.

Fraternal twins are two siblings born at the same time; they may be male or female and have different characteristics. Identical twins have the same gender and look alike. Chances of a mother giving birth to identical twins are about 3 in 1,000.

## Teaching Tip

Encourage students to act out or use gestures to explain words they do not know. Some students learn best when using bodily-kinesthetic techniques, such as movements and gestures.

## Additional Activity

Have students work in small groups and show family photos, especially special moments, such as weddings and family vacations. Have students talk about the people and events in the pictures and then answer questions from the others in the group.

- Society columns in large newspapers often focus only on the activities of the rich and famous. They feature famous names and high-society events, such as charity balls and gala occasions.
- In small-town newspapers, society columns often focus on the everyday events in the lives of people in the community; for example, who visited who for dinner, and who had a celebration.
