Class: 10

Chemistry

Worksheet: 4

Answer in one line

1. Why powdered CaCO_3 reacts more rapidly than flaky CaCO_3 ?

2. Name the reaction which takes place between an acid and base?

3. How many products are formed in a synthesis reaction?

4. Name the equilibrium which is attained during the melting of ice?

5. What type of reaction is electrolysis?

Answer in a line or two

1. What is a combination reaction?

2. What is ionic product of water?

3. What are the two types of double displacement reactions?

4. What are the three main classes of decomposition reactions?

5 Define rate of reaction?
