Nothing is as precious as good health. Following are some guidelines to being fit and healthy:

- Eat a healthful diet. You should eat a variety of food. You should not eat too much sugar or fat.

A diet without sugar or fat is not good, either. Eat a lot of vegetables. Avoid junk food and soft drinks. Remember to drink a lot of water.

- Exercise regularly. You can play a sport three or four times a week. You can even give up your bikes and cars and walk.
- Maintain a daily routine. This routine should balance between life and work. Being under great stress can destroy your health very quickly.

Good health is what everyone wishes for. It is neither difficult nor easy to stay fit. You need to be determined to do good things for your health.
