Next, we travelled east to a cultural centre. There, we watched some traditional dances. We also visited a handicraft centre and saw how ornaments were made from coconut shells.

We travelled north to an old fort. After visiting the fort, we went to a museum nearby. I had a great time looking at some interesting exhibits.

The next day, we continued on our journey west. We drove through a long tunnel. Later, we reached a small town where we bought some souvenirs. After that, we went to the jetty, got into a speedboat and left the island.

We travelled further north and arrived at a village. Our guide took us to a restaurant to taste some local food. I loved the food!

We got to the island in a speedboat. At the jetty, we met some fishermen and chatted with them.

We travelled south and came to a river. We took the bridge across the river and drove on until we reached Gaya Hotel. We had dinner there and then rested for the night.
