Subject: Holiday!

I just came back from a holiday with my family last Friday. I thought my best holiday was in Melaka but this was a lot more fun. My whole family took a flight to George Town, Penang from Kuala Lumpur. We stayed at a hotel on Armenian Street, next to Aceh road, from 13 to 16 August.

This trip was all about food. On our first day, we went to look for my brother's favourite food – Char Kuey Teow and Penang Laksa. Although I enjoyed the curry noodle, I still think Penang Laksa was my top pick. It was delicious.

One food I did not enjoy much was the fried oyster with egg. I did not like the taste of the oyster but my mother absolutely loved it. However, if there was one thing that my whole family like, that would be cendol. When we got there, there was a long line. We thought it would take us 30 minutes but it only took us 10 minutes to get our order.

We also did not miss the opportunity to explore the UNESCO World Heritage Site. We rented some bicycles and together we cycled around the town to look for every street art. There were many cars on the street so we had to be extremely careful.

Jamil, you need to come visit 3D art museum because you love art so much and I was surprised by how cool it was. I know you do not like key chains so I bought you an art book. Give it to you when I see you!

National Service Programme and I

Taking part in the National Service Programme was one of my best decisions. I joined the National Service Programme last month in Tawau for 3 months and I've learned so much from it.

First of all, it helped me develop good habits such as waking up and sleeping early. At home, I could always sleep late and wake up anytime I want. But in the camp, we had to follow the rules set by the officers and shut the lights by 10 p.m. At first, I did not like it but now I think it is a good habit for me. Now, I always try to sleep before 12 a.m. to make sure I get up early in the morning.

By joining the National Service Programme, we made new friends who come from different races and states in Malaysia. I got to know some new friends from Selangor and they shared their lives in West Malaysia with us. Hearing the stories, I could see that there is so much difference among us even though we live in the same country. Because of that, I learned to respect people with different cultures.

The programme taught me about responsibility. Under the National Service Programme, every individual is the same. If we did something wrong, we would be given a fair punishment. If we did something good, we would be given good words or even prize. Therefore, we have to think carefully before taking any actions. I find it useful to use in my daily life.

In additions, there are many exciting activities in the National Service Programme such as jungle trekking and cooking in the jungle with very few utensils and food provided. We learn to work in teams and help each other solve problems. We learn to set up camp, group patrol at night and cleaning a dorm together. On top of everything, I think what I like most is all the love I felt from everyone I met in the camp.

Questions 35 - 40

You are going to read an article about a school event.

Six sentences have been removed from the article. Choose from the sentences (A – H) to fit each gap (35 – 40). There are two extra sentences which you do not need to use.

For each question, mark the correct answer (A – H) on your answer sheet.

Last Monday, our school SMK Kemaman had organised a Sing and Dance event. **35|** In the morning, everyone gathered in our new school hall and our headmaster, Mr. Vivek gave an exciting speech.

The first activity of the day was the singing contest. All individuals were really talented. Izzah from my class was one of the singers. **36|** To support her, all of us voted for her.

However, Nelson from another class was Izzah's biggest competition. After counting all the votes, she lost to him by just five votes. **37|**

Since this was a Sing and Dance event, we could not miss out the dancing competition. This competition had a twist this year. **38|** It was fun to watch some of the dancers dancing hip-hop in traditional costumes.

However, I must say that some of the dancing teams were really creative. Everyone cheered for their hard work and talent. After the results were announced, the winner was a dancing team from 5 Unggu. They received their trophy joyfully from the head of co-curriculum, Mrs. Lee.

39| Everyone seemed very happy with the event and had a lot of good words for it. I hope it will be the same next year.

Event like this was useful to all students as we learnt how to work as a team with our group members. People who had singing and dancing talents also got a chance to show what they could. **40|**

I think learning from experience is extremely important. It helps us grow as a person. We will remember it for the rest of our lives.

- A She sang like an angel on the stage.
- B The day ended with a lot of joy.
- C All students and teachers attended the event.
- D All of us danced with joy.
- E They also learnt to put their creative ideas into actions.
- F Every team was required to have both modern and traditional dance in their performance.
- G Although Izzah only managed to get second, we were all very proud of her.
- H He wanted to sing a different song.
