Memories of my first day at school

I remember my first day at school very well. I knew the school quite well because my older sister, Sandy, went there and every day, dad and I met her at the school gate after school. Every day, she ran out of the school with her friends. She often carried a painting. I felt jealous. I wanted to paint too!

I was five years old when I started school. Most children in my class started school in September, but I started school in January, when I was five years old, because my birthday is in December. Three other kids started school on the same day as me. I was excited about my first day.
